Australian Packaging Covenant Action Plan 2011-2013

EXECUTIVE SUMMARY

ITW AAMTech is a newly formed division of ITW Australia Pty Ltd. We have manufacturing plants in Sydney and Adelaide. Our primary products are sold into Automotive Aftermarket and are mainly chemical in nature. The current brands of the products are Wynns, Tectaloy and Chemtech. The packaging materials used are common plastic and metal liquid containers e.g. bottles, tins, cubes, drums etc. typically used and manufactured in Australia. Further information of our Company and products can be found in our web-site www.aamtech.com.au.

It is our Company aim to achieve sustainable packaging for our products in accordance to Australian Packaging Covenant. Our approach is direct and our procedures are designed to be simple to understand for all our employees. We also intend to reduce documents to the absolute minimum to reduce unnecessary paper work load in the spirit of saving earth's resources and improving the environment. The whole management team is dedicated to this task and the coordinator of this effort is our Technical Manager, Peter Chung. The progress of this initiative will be reviewed in our monthly Management Meetings. Further information of our action plan can be obtained from Peter on (02)9828 0900.
