Kitchen/Food Service

Bactrasan

SEPTONE

Bactrasan is a powerful liquid quaternary ammonium based product with exceptional sanitising and fungicidal properties. Bactrasan is used to sanitise previously cleaned food processing equipment in the food manufacture, brewing, cordial and soft drink industries as well as in abattoirs, restaurants and canteens. Bactrasan may also be used for mould control in cold rooms and on other surfaces.

2:1	Equals	500mL	in 1 Litre
1:1	Equals	1 Litre	in 1 Litre
If more water is used, multiply the amount of "product" to be added by the increase in the volume of water, ie: for 2 Litres of water at a dilution rate of 40:1 - Use 50mL of product			
If less "product" is used than recommended, the 'product" will not be effective or do the job efficiently.			
If more "product" is used than recommended, it will not necessarily work more effectively, but could be more costly and wasteful.			
For best chemical efficiency, always measure the quantities used.			

Cleaning is a Process - Use the W.A.T.C.H System

WATER

Water activates the chemical. How much water are you using?
Is your dilution rate correct?

ACTION

What method are you using - scrubbing, mopping, wiping.
Are you using the correct method and tools?

TIME

Chemicals need time to work, allow the product time to do its job.

CHEMICAL

Is the chemical you are using the right product for the cleaning job you are performing?

HEAT

What temperature should you be using with the product?
Not all chemicals require hot or warm water for them to work

Colour Coded Packaging

General Purpose Cleaners

Kitchen & Food Service Cleaners

Infectious Areas Disinfectant Cleaner

Toilet & Bathroom Cleaners

Floor Care

Laundry Cleaners

Septone's colour coded packaging meets OH&S specifications for chemical identification.

Labelled Dispenser Bottles

750 mL bottles, labels, flip top caps and spray triggers are available for purchase. They are designed to meet OH&S specifications for end users when decanting from bulk packs

Product Features

Quick Reference Symbols displayed on our packaging help identify the benefits of the product
